Barcelona Junto al estudio serie con un auténtico soporte y un diseño de usted. Papel de parti. . You Can't Take It With You Have you ever left the home you're renting for a few months or even years? Have you stayed in one home for that long? I have, and I probably will again. I'm a lifelong renter and I can't imagine staying somewhere else. Renting for a long time means living with a big chunk of change in my pocket, and I look for apartments that meet my needs. If you're willing to put up with small things, you can find a really great place to stay, and the housing market is sure to take notice of your willingness to put up with the minor inconveniences and enjoy the benefits of living in a place that's familiar to you. You can't take it with you, if you're willing to live in it for however long you want.Extensible A-Bilateral Nasal Delivery of Kogel Vitamin C Peptide for Cancer Therapy. Development of a new non-invasive strategy for cancer therapy has attracted widespread attention. Herein, a pH-sensitive and intracellularly transportable kogel vitamin C (KC) peptide, EGFR-KKFAKVC-C12, was synthesized and applied for disease targeting. After near-infrared (NIR) irradiation, the EKR-KKFAKVC-C12 peptide showed high selectivity for tumor tissues over normal tissues, due to the over-expression of EGFR, which may be useful for cancer therapy. Meanwhile, it was found that EKR-KKFAKVC-C12 peptide could encapsulate in inorganic silver particles with an ultra-small size of 4 nm to enhance its stability and improve therapeutic efficacy. Meanwhile, to enhance in vivo stability, a pharmaceutically feasible and safe polymeric nanocarrier, polylactide-polyglycolide (PLA-PGA), was synthesized. The results showed that the hydrophobic PLA-PGA copolymer
