

I have a new Chinese clone of vag 12.10.3 (and I'm not a seller). Let me know if I can help you in any way. Can anyone crack the new 12.10.5 beta? He already does it for me. Thanks.
-Taras First, do not use this code to use Vag Com software version 12.10.5. Secondly, if you need it to work on Windows 7, you must use the special driver "VAG - COM - Universal Driver". This is a program that works as an emulator of the original VCDS software. You can then use it with Win7 and Windows 10 using this official driver for Vag Com.
