math lovers enseignants et étudiants Tunisia. This is the methodology that underlies all mathematics in the modern world. "Fundamentals of Math: Structure and Applications" This book contains a description of the principles and methods used within this classical French school. But the most important thing is the explanation of the basic concepts. This is very convenient for learning the basics of mathematical theory, and this is what is taught in the school at the Institute of Tunisian Sciences and Research. "Elements of Mathematics" "Fundamentals of Mathematics" is the main educational book of the Institute of Tunisian Sciences, published by the Institute in 2009. This is a classic textbook, a manual on fundamental mathematical foundations. "Methodological foundations of methods of mathematical logic" "Methodology of concepts" "Methodological and historical foundations of mathematical logic" This is another classic work of the Tunisian mathematical school published in 2003. This book deals with important aspects of logic as a science of methods. The book has a section on the principles and components of logic and is intended for anyone who wishes to study logic. "A Mathematician's Theory" "Theory of Mathematics" of the French Faculty of Mathematics, University of Tunis. The book was written in 1946. It was the only mathematics textbook written in Tunisia. This book would be mandatory for study at the University of Tunisia. The University of Tunisia was the first educational institution to introduce the teaching of mathematical physics. This was done in 1958. And, despite the fact that Tunisia is not a secular state, today there is one school of mathematical and nuclear physics. And if you think that they don't study mathematics there, then in vain. Anyway, schools of this profile exist. Every year more and more educational institutions transfer the study of mathematics to Western technologies and standards. The same applies to physics. Today, more and more young people believe that "science is interesting, it's fun, and physics is very prestigious." But you can study mathematics in a format approaching the educational process of technical specialties. In Tunisia, there are also mathematical schools working in this direction. The next important aspect is what language. Of course, programmers do not need to travel to Tunisia, but anyway, if you are going to a foreign country and want to do science, it is better to learn it in the language in which
