Keystroke Macro: Send a single keystroke or sequence of keystrokes based on the selected hotkey (the main window key) or add another hotkey to create a custom macro. Hotkeys: Hotkeys can be set by keyboard or mouse clicking or can be a macro based on hotkeys. Save/Load: Save and Load Tools: Undo, Redo, Tools and more Settings: Change macro settings and save your macro settings for your use. Keystroke Macro: Keystroke Macro is a program that lets you create macro sequences with one or multiple keystrokes or hotkeys on a keyboard. The set of keystrokes or hotkeys is called a macro. Keystroke Macro allows you to define custom hotkeys, quickly record macros on a keyboard, record hotkeys on a mouse, and convert macros to text or text documents. Keystrokes or hotkeys can be added to the Macro, the default macro, or to any other macro in the macro sequence. When a keystroke or hotkey is added to a Macro, it will be assigned to the hotkey or macro, which will allow you to use the hotkey or macro to trigger the keystroke or hotkey. Keystrokes or hotkeys in Keystroke Macro is recorded in Macro-to-text format. The macro is exported to text and can be played back in Windows Media Player or any player that supports macro playback. Keystroke Macro runs in the background. You can control the program using the hotkeys (windows), the menu bar, the keyboard, or the mouse. Each hotkey can be set as a keystroke or a hotkey. You can also use hotkeys to play/pause, stop, resume, and step through a macro that you have recorded. Keystroke Macro saves all the data associated with a macro. You can edit and save your macros as many times as you want. You can also convert the entire macro to text so you can send the text to someone else. Keystroke Macro Features: Simple interface You can play the recorded macros through the interface or you can play it directly from a local file (media player or player that supports macro playback). Excel 2007+ and Word 2007+ compatible Keystrokes Macro can import data from Excel 2007+ and Word 2007+. Record macros using a mouse You can record macros using a mouse by holding down one or more keystrokes on a keyboard and using a mouse to draw a rectangle on the 81e310abbf
