The activation process is not straight forward and involves some verification.Q: Magento 1.7 - Block populating by Typo3 backend I am currently developing a Magento 1.7 webapp and I need to setup my own backend. The backend should display 3 blocks per page (they are in a Typo3 backend) I've created 3 simple modules that extend the abstract module Magento_Backend. I've created a custom template and I overwrite the layout used to layout my blocks. The first module is called d0c515b9f4
