Kindle Books by Kaminsky, Julia. Kindle Books by Kaminsky, Julia. From the author of I Really Wanted to Help You.Q: Incorrect syntax in Django query I want to select items with status = 1 or 2. In this case, the results are all 1. I want to get the items with the second condition. users.objects.filter(admin=1, status = 1).filter(status = 2) Both status = 1 and status = 2 are true. A: You could write this as: users.objects.filter(admin=1).filter(status=2) That is, the status filter expects an inline evaluation and not something a queryset with aggregation (like.filter(..)) As mentioned in the docs, you should be able to use: users.objects.filter(admin=1).filter(status\_\_in=[1, 2]) This will find any object where status = 1 or status = 2. #ifndef BOOST\_METAPARSE\_V1\_ERROR\_DIG 648931e174
